

Pediatric Disaster Management 2007

# Linking the Key Players

August 27 & 28, 2007, 7:15 a.m. - 5:15 p.m.

DeVos Place  
Grand Rapids, MI

### *Program Objectives*

- \* Gain insight into Pediatric Preparedness within the State of Michigan.
- \* Identification and awareness of populations considered to be at risk, especially those pediatric patients with special healthcare needs.
- \* Review assessment and management of pediatric patients.
- \* Become familiar with pediatric specific equipment used within both Hospitals and Emergency Medical Services.
- \* Discuss considerations for pediatric patients and their families when preparing for a disaster.
- \* Expand understanding on the mental health impact of an emergency as well as considerations for mental health treatment for both pediatric patients, and the providers treating them.
- \* Provide guidance on issues concerning standards of care and treatment considerations for pediatric patients in a Pandemic Flu emergency.
- \* Review and expand on topics associated with planning preparedness and pediatric specific resources needed to ensure proper response from Hospitals, Emergency Medical Services, Emergency Management, and Public Health disciplines.
- \* Case based review of pediatric injuries.

### *Continuing Education*

*\*CME Pending Approval\**

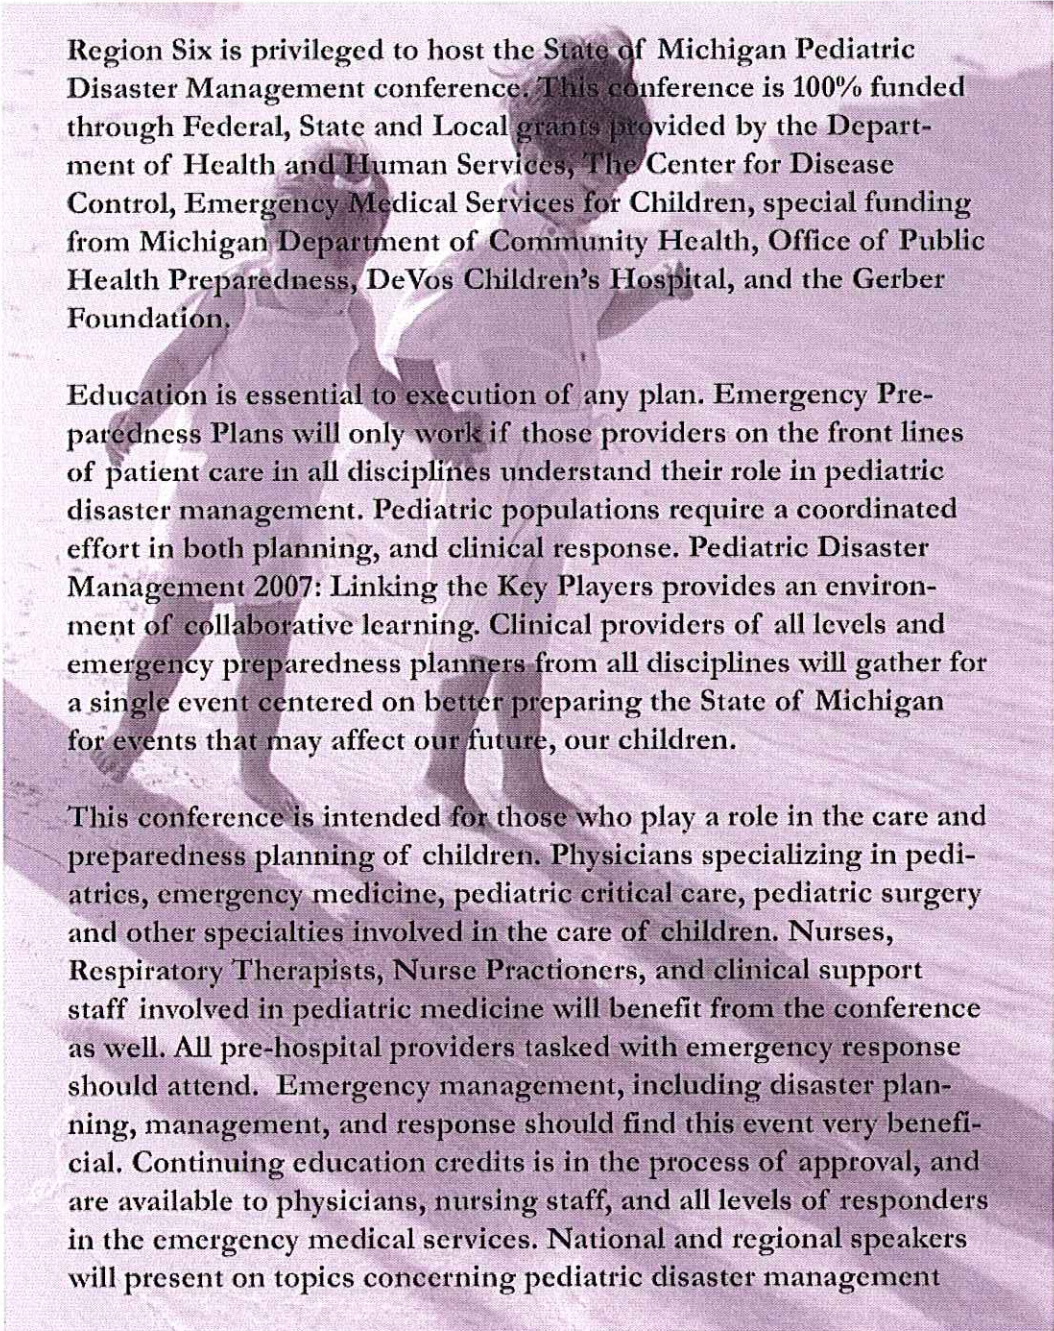

#### *Physicians & Nursing*

The Grand Rapids Medical Education & Research Center for Health Professions is accredited by the Michigan State Medical Society Committee on CME Accreditation to provide continuing medical education for physicians.

#### *Emergency Medical Services*

Continuing Education will be available for all levels of EMS licensure

Region Six is privileged to host the State of Michigan Pediatric Disaster Management conference. This conference is 100% funded through Federal, State and Local grants provided by the Department of Health and Human Services, The Center for Disease Control, Emergency Medical Services for Children, special funding from Michigan Department of Community Health, Office of Public Health Preparedness, DeVos Children's Hospital, and the Gerber Foundation.

Education is essential to execution of any plan. Emergency Preparedness Plans will only work if those providers on the front lines of patient care in all disciplines understand their role in pediatric disaster management. Pediatric populations require a coordinated effort in both planning, and clinical response. Pediatric Disaster Management 2007: Linking the Key Players provides an environment of collaborative learning. Clinical providers of all levels and emergency preparedness planners from all disciplines will gather for a single event centered on better preparing the State of Michigan for events that may affect our future, our children.

This conference is intended for those who play a role in the care and preparedness planning of children. Physicians specializing in pediatrics, emergency medicine, pediatric critical care, pediatric surgery and other specialties involved in the care of children. Nurses, Respiratory Therapists, Nurse Practitioners, and clinical support staff involved in pediatric medicine will benefit from the conference as well. All pre-hospital providers tasked with emergency response should attend. Emergency management, including disaster planning, management, and response should find this event very beneficial. Continuing education credits is in the process of approval, and are available to physicians, nursing staff, and all levels of responders in the emergency medical services. National and regional speakers will present on topics concerning pediatric disaster management

This conference is funded in part by the US Department of Health and Human Service, Office of the Assistant Secretary of Preparedness and Response (OASPR) Agreement award and supported by the Michigan Department of Community Health, Office of Public Health Preparedness.

This conference was made possible in part by a Grant from the Emergency Medical Services for Children (EMSC) program of the Maternal and Child Health Bureau (MCHB) of the Health Resources and Services Administration (HRSA).

## Featured Speakers

**James Broselow, MD** - Clinical Associate Professor of Emergency Medicine, Department of Emergency Medicine, University of Florida College of Medicine, Shands Jacksonville, Jacksonville, Florida.

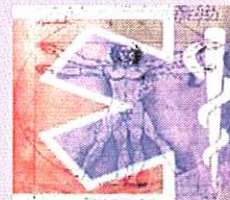

**Andrew L. Garrett, MD, MPH, FAAP** - Director of Disaster Planning and Response, National Center for Disaster Preparedness, Mailman School of Public Health, Columbia University, New York, New York. Medical Director, West Boylston Fire Department, West Boylston, Maryland. Medical Officer and Supervisory Medical Officer, FEMA Disaster Medical Assistance Team.
